/ ENDURA

Advanced design for the most demanding conditions

VOLGREN ENDURA

As the name suggests, Volgren's Endura is the bus to add to your fleet when you're looking for engineering excellence matched with outstanding durability. We've built this bus to withstand the most exacting use, whether you intend to operate it as a charter bus, a school bus or under the toughest of conditions as a mine transport vehicle.

A PROVEN LONG-LIFE BUS

When you purchase the Endura, you'll be purchasing an Australian-designed vehicle with a corrosion-resistant body, meaning lower fuel consumption, less wear-and-tear, cheaper repairs and less maintenance over the life of the bus.

CO-BOLT® TECHNOLOGY

A bus made with a Volgren body is unlike any bus on the Australian market. Since 1978, we've been in partnership with Swiss manufacturing trailblazers, Hess, the company that invented the Co-Bolt® aluminium system. It's the technology we use to build the Endura frame.

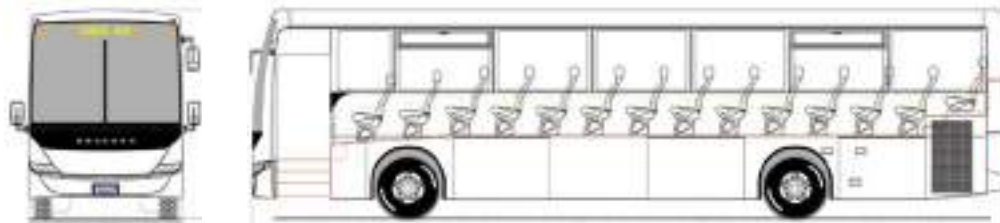

For operators, Co-Bolt® means far superior reliability than a traditional steel bus - we offer a **15-year warranty on Endura buses' aluminium structure**.

Co-Bolt® also ensures that, in comparison to traditional buses, the Endura:

- Has fewer components – no self-cutting screws or rivets
- Takes fewer hours to assemble, and so can be delivered in a timely manner
- Is easier to repair and service
- Is more environmentally friendly – chromate-free screws, fully recyclable

KEY FEATURES

- › High-strength aluminium bolted construction
- › Bolted fix lower panel for easy replacement
- › Built on all major chassis
- › Flat interior saloon floor
- › Through bins
- › Bin doors to both sides
- › Modular interior luggage racks
- › All lamps (interior and exterior) with exception of high beam are LED type
- › Day time running lights

KEY CAPABILITIES

- | | | |
|-----------------------------|----------------------------------|------------------------------|
| › Wheelchair lift access | › Individual AC vents | › Out swing coach style door |
| › CD/PA/Radio | › Reverse camera | › Parking sensors |
| › DVD/TV | › CCTV system | › Polished alloy bullbar |
| › Toilet | › Flexibility in key components | › Saloon window curtains |
| › Individual reading lights | › Electronic destination display | › Electronic sun blinds |
| › Stone guard | › No bin option | › Mine transport spec option |

KEY STATISTICS

Length	Height	Width	Seats
12.3-12.5m	3.4m	2.5m	Up to 61
